

# HOTEL BROOKLYN LEI.

## Sustainable Meetings

Hotels committed to sustainability certainly stand to benefit, yet the journey towards a greener way of operating requires significant commitment. At Hotel Brooklyn, Leicester, we are committed to sustainable tourism practices. We have applied environmentally friendly methods to manage waste, energy use, water conservation, and clean air practice and promotion.

Our meetings and event rooms provide bright and spacious conference facilities. The Guys and Dolls' sustainable meeting rooms are flooded with natural light and are equipped with energy-efficient lighting and heating systems. As well as our guestrooms, public areas and back of the house, our function rooms are outfitted with LED lightbulbs, which utilize up to 80% less energy and last up to 25 times longer than traditional incandescent lightbulbs.

We also offer a range of recycling and waste reduction initiatives; paperless procedures are in place to reduce printing and paper usage. In addition to our eco-friendly features, we offer state-of-the-art AV and lighting, complimentary Wi-Fi and large in-room TV screens with connection cables to help you stay connected and productive throughout your meeting.

Our versatile, fully accessible, Guys and Dolls meetings and events space can be split with a partition wall to enable two meeting spaces. The room is well-spaced with air conditioning and is perfect for large events, dinners, presentations, networking events and team training days.

We also offer 24-hour rates from £150.00 which include accommodation, breakfast and dinner along with your day delegate package.

## Sustainable Catering

In the restaurant and on the Delegate menus, local ingredients are always available and when possible, sustainably sourced. We are committed to reducing food waste across our business, so we cooperate with certified companies which collect used cooking oil, paper, cardboard, and food.

## Sustainable Transport

Hotel Brooklyn is ideally located just a short 16-minute walk from the city centre. We recommend delegates use public transportation to access events at the hotel. The free 'Hop!' bus service provides a frequent link from transport hubs to many attractions and businesses across the city centre, helping improve accessibility for everyone. The closest 'Hop!' stop, is station GE by Nelson Mandela Park, just across the road from the hotel. Running up to every 10 minutes Monday - Saturday 8am - 6pm. The service is operated by fully electric buses with zero emissions, allowing for a quieter, smoother ride, as well as helping to keep the air across Leicester cleaner and fresher. Free Wi-Fi and USB charging ports are fitted on each seat to allow you to stay connected and charge your mobile or tablet whilst on the move.

The train station is just a short 14-minute walk away. Before you are welcomed into the hotel, you can enjoy a lovely stroll through the leafy Nelson Mandela Park from the station.

## Plan With Us

Our offering of sustainable meetings in Leicester, reflect our commitment to preserving the environment. We want to offer you a stylish, comfortable workspace for your event that won't cost the earth.
